I did my internship in web development. Learned to work on the backend using sql and dbms.

### CODE2DEV Technologies Pvt Ltd, Delhi

#### Internship

I did my internship in web development. Worked on live projects. Made website for clients also worked on backend using SQL, MongoDB. Believe nothing ever becomes real till it is experienced.

## PROJECTS

### Blog website

This is a website I made using Node.js and EJS. And also used npm packages like body parser and express. To write daily blogs or daily journal entries.

### Wedding website

Made using HTML, CSS, Bootstrap

This website keeps track of people going to attend the wedding during covid. I used MongoDB to store the data.
